➤ HOW TO CARE FOR YOUR PRODUCT

Do not allow liquids to pool and remain on the surface. Use coasters under drinks glasses or mugs. Spillages should be cleaned away as soon as possible using a soft cloth. Avoid any acidic, silicone or harsh abrasive cleaners or fluids such as lemon, lime, tomato ketchup or orange juice on the surface.

For light and general dusting, wipe down with a lint-free cloth. For cleaning use a mild soap (e.g. Fairy) on a well wrung-out lint-free cloth. As with all finished surfaces, do not rub too hard in one particular spot as it will give the surface an uneven polish.
